

# 9 major reasons why homes need MeshWorkz Insect Screen Systems

European Style Insect Screens For  
Windows & Doors

**MeshWorkz**<sup>®</sup>

Let your home breathe.

## What customers say about MeshWorkz®

*“My experience working with MeshWorkz® has been nothing but professional. Right from the solution to my needs, quotation and install have been very professional. I developed some problem after a few months, MeshWorkz® instantly offered to replace the system with a newer version and executed the replacement on time. I highly recommend MeshWorkz® over any other fly by night operators as in the long run that quality and service will bring the true ROI.”*

**Rohit K (Villa Owner)**

*“Great Service and International Quality product in India. Very prompt in service and follow-ups. Variety of offerings in the same system depending on the window type.”*

**Siddharth (Apartment Owner)**

*“We found that MeshWorkz® is a great source for products like window mesh screens and window shades. We have had their mesh for several years now in our villa and it has performed very well and has lasted too. They take responsibility for their products. Some of the shades they brought originally had small defects, and they replaced them with no fuss. Overall a great experience. We would use them again whenever the opportunity arises. Highly recommended.”*

**Sathish T. (Villa Owner)**

*“Truly impressed with the quality and the concept of having a fully collapsible fly mesh. A very professional sales team and the team of technicians who came to install it. I would definitely recommend them and would use their service in the future.”*

**Ibrahim A. (Apartment Owner)**

“Understanding our requirement was the key which MeshWorkz® did very well. I found MeshWorkz® is very precise and particular during the implementation phase. Very politely and neatly work done with good quality and finishing.”

**Sharad C. (Apartment Owner)**

“Excellent service as per schedule. The staff who came for installation were extremely efficient and quick. We are already recommending MeshWorkz® to friends and family.”

**Vijapure (Apartment Owner)**

“Excellent service, great quality products, very skillful staff... I would recommend MeshWorkz® to everyone unreservedly.”

**Abhijit S. (Villa Owner)**

“We very recently got a retractable pleated screen door fitted in our home. The work was done very elegantly and with high-quality material used. The installation team was very well behaved with good work ethics. Keep up the great work!!!!”

**Mrs. Sanghvi (Apartment Owner)**

“Excellent customer service, the technicians explained all the options available during the visit like from sending quote till installation, and the service was very professional.”

**Vani M. (Apartment Owner)**

# First things first, what are Insect Screen Systems?

Screen systems are simply Insect Screens or Mosquito nets, as we call them (made of polyester or Fiberglass) that let the air in but don't allow insects, lizards, etc. to get inside the house. This is a new technology that allows you to install a screen on existing windows and doors without any kind of civil work.

## Ok, so why should I use MeshWorkz Insect Screens?

Common Insect Screen Systems are designed like windows, therefore they block the outside view even when they are not in use. Our product on the other hand gets completely folded such that it occupies very little space when not in use.

# 9 major reasons why your home needs MeshWorkz!

## Reason #1: Retractability

Unlike common window/door screens our products are designed such that they are barely visible when completely retracted. This avoids blocking unnecessary space and movement.

## Reason #2: European Quality

Our pleated mesh is a European make and is 100% polyester. Our mesh is tested thoroughly for UV, salt water, and wind resistance.

## Reason #3: Smooth movement

Our special guides that are part of the screen door ensures that opening and closing the door is effortless and smooth.

Above images are actual on-site installations

#### Reason #4: Sleek design

Our unit takes only 20mm of your wall space. It is thick enough to keep the system sturdy yet thin to make the product sleek in look.

#### Reason #5: Magnetic locking

Our permanent rubber magnet technology helps in locking the screen with ease and can be opened with equal ease.

#### Reason #6: Colors to match your home décor

One of the unique qualities of our product is the fact that we can match any window color and we also have over 30 wooden finishes for our product. So our systems will compliment your windows/doors.

### Reason #7: Safe for children

As our product is made from polyester (European Standard Quality) and not metal (as most screen doors) the chances of children cutting themselves by a damaged metal mesh or even worse a rusted metal mesh are completely avoided.

### Reason #8: Warranty & After Sales Service

We offer a 3-year warranty with our products and hassle-free service support within 48 hours of raising a query.

### Reason #9: Durability

Unlike common screen systems, our product will function just as new even if it's not been used for a long time.

| 12. Eco Friendly             | ✓         | ✗      |

## Common Questions Most Customers Have!

**Q. Are MeshWorkz products expensive?**

A. Surprisingly, our price is only slightly higher than our competitors. But our product quality and the life of our product justifies the extra premium you pay for it.

As our price is calculated based on the dimensions of your window or door, call us at 78880 27448 to get a quote from us and a free product demonstration.

**Q. Can your products be used on existing Windows/Doors?**

A. It doesn't matter if your windows/doors are brand new, renovated, or old, we can customize our product based on your requirement and your dimensions.

**Q. How can I get a free (no obligation to buy) quotation and demonstration of MeshWorkz products?**

A. Yes, simply follow these 4 steps:

Step #1: Call us on 78880 27448 or email [info@meshworkz.com](mailto:info@meshworkz.com)

Step #2: Fix the date and time slot with our team, based on your convenience and our demo team's availability

Step #3: Product demonstration

Step #4: Estimation of cost based on measurements of your windows/doors.

**Q. How long does it take to install the screens?**

A. 10 days to custom manufacture your screen system, as per your window and door dimensions. And about 30 minutes to install the product. That's it!

**Q. Do you provide after-sales service, in case of any damages or repair?**

A. Yes, we do. To know more simply call 78880 27448.
